

Angels in the Outfield

One child at a time...

Susan Marl, Dessert Dash Coordinator

susan@theangelsintheoutfield.org

Originally from Southern California, Susan has lived the majority of her life in Oregon. She is married to her husband, Trace, and has 2 grown children. Susan graduated college with an Accounting/Business Administration degree, but after several years, decided her love was Health and Wellness. With a need to help and nurture others, she returned to college and has been a Licensed Massage Therapist for the last 20 years. She has recently added a Certified Functional Nutrition Counselor credit to her list!

A couple of things happened simultaneously in Susan's life that affected her deeply. She was selected to sit on a grand jury for a month, and a friend also invited her to the Angels In The Outfield annual fundraising auction. The grand jury experience exposed her to some of the horrific things that some innocent children are forced to deal with. Her experience with Angels gave her hope and she felt a strong desire to help in some way. After a few years as an auction attendee, Susan was approached to help with the Dessert Dash for the auction and later invited to be on the board. She is excited to be a part of Angels.

Susan joined the Angels board in 2019.
